### UC2.1 Community Feedback on Facilities<sup>1</sup>

The Parish of Upper Clatford is a vibrant and cohesive community, with a wide range of voluntary groups and community led services. It is often a comment from visitors or local residents that this is the case.

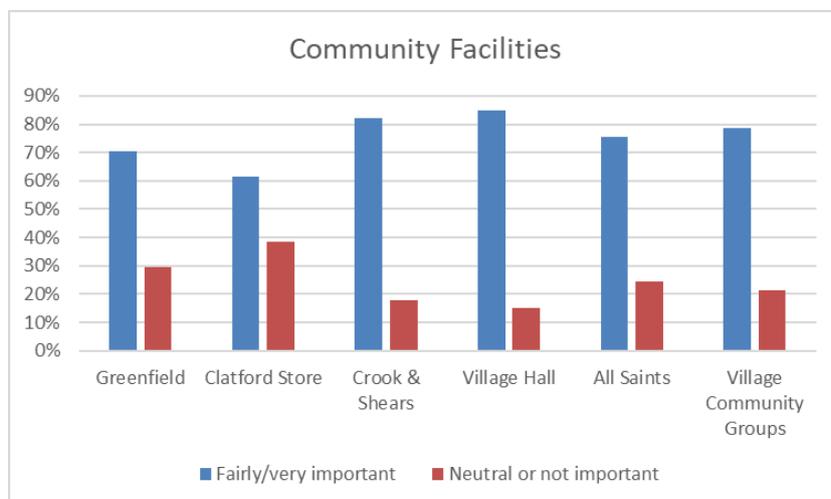

Equally, residents in the parish have identified this as being a key characteristic and draw to living in the village. In Q12 of the NDP Questionnaire, parishioners were asked to what defines the Parish identity and the responses are shown below.

Graph 1: Parishioners Feedback - Important Village Characteristics

These results support the view that residents see the community, being in a tranquil and quiet environment set in the countryside as being almost universally important.

In Q21, parishioners were asked how important existing Community Facilities were. The responses are summarised below and show an overwhelming confirmation of the importance of these services:

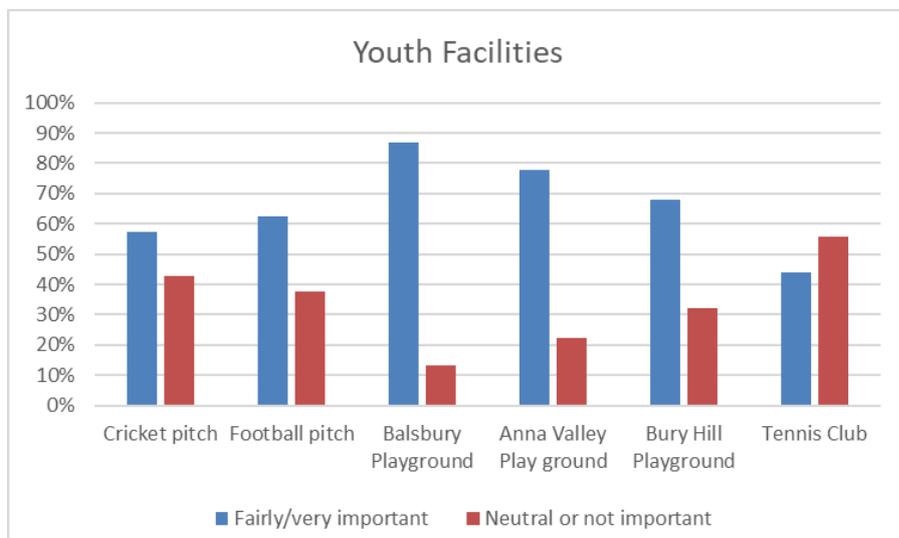

<sup>1</sup> All photographs have been taken by John Baxter and Rob Hall who have granted permission to use them in the NDP

The only facility to score lower than 70% is Clatford Store, which is actually located in Goodworth Clatford.

The Community were also asked to rate the importance of youth related community facilities which scored as follows:
